The Art and Science of Packaging

Consumers are increasingly demanding more sustainable products, expecting from brands a real commitment also when it comes to packaging, which needs to be both functional and manufactured with materials that minimize the product's environmental impact.

For more than fifty years, Seda has been providing a complete range of paper packaging solutions for the food sector which combine both sustainable materials and cutting-edge technologies.

ISTITUTO ITALIANO IMBALLAGGIO
The ITALIAN INSTITUTE of PACKAGING

THE NETWORKING FOR THE PACKAGING SUPPLY CHAIN

The Italian Packaging Institute provides ongoing and constant advising services to all its members. It draws on the knowledge and experience of an esteemed group of experts and consultants, who promptly attend any issues related to the packaging supply chain.

OUR MEMBERS

The Italian Packaging Institute major strength lies in its members, which include the entire supply chain, from raw materials to brand owners, creating an exquisitely technical network, unique in its kind.

MANUFACTURERS - USERS
AGGREGATED MEMBERS
ASSOCIATIONS
SUPPLY CONSORTIA

SERVICES

WIKIPACKAGING

The technical-legislative database is closely connected to current events and it also collects a variety of documentation such as legislative texts, opinions, position papers, rules in technical investigation, material alerts and more, available at any time, through access to the area reserved for members only.

THE COMMISSIONS

Experts Technical tables exchanging ideas on cross-cutting and topical issues, aiming at drawing up operational guidelines for the industry. All experts are from associated companies.

HELP DESK

A technical and regulatory support, whose strength is the direct contact with experts: "real-time" answers by phone and by email.

DATA BANKS

The Italian Packaging Institute has legal and economic databases that can be consulted and downloaded free of charge by members, independently, from the Wikipackaging.it site.

ALLA RADICE DI TUTTO C'È LA NOSTRA STORIA.

AT THE ROOT OF EVERYTHING
THERE'S OUR HISTORY.

Da mezzo secolo sviluppiamo film termoplastici innovativi con lo scopo di migliorarne le performance, minimizzando l'impatto ambientale.

We've been developing for half a century innovative thermoplastic films with the aim of improving their performance, minimizing the environmental impact.

DISCOVER TOMORROW NOW.

GEA presents itself at Ipack-Ima with a renewed purpose and vision. We plan to focus on four key factors, sustainability, new food, innovation & digitalization and service excellence.

Join the new food tasting events:
DISCOVER NEW TASTES

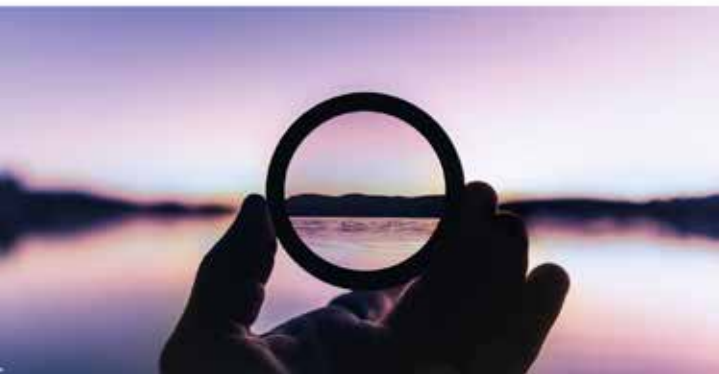

From May, 03rd to 05th:

at 10:30 AM we will offer a nice, relaxing and fresh start with some New Food products made by our bakery technologies.

at 05:00 PM we will offer an entertaining and fulfilling experience dedicated to pasta, snacks and meat analogues.

Stop by to Discover Tomorrow Now!

→ See you at [Hall 1 Stand C31](#)

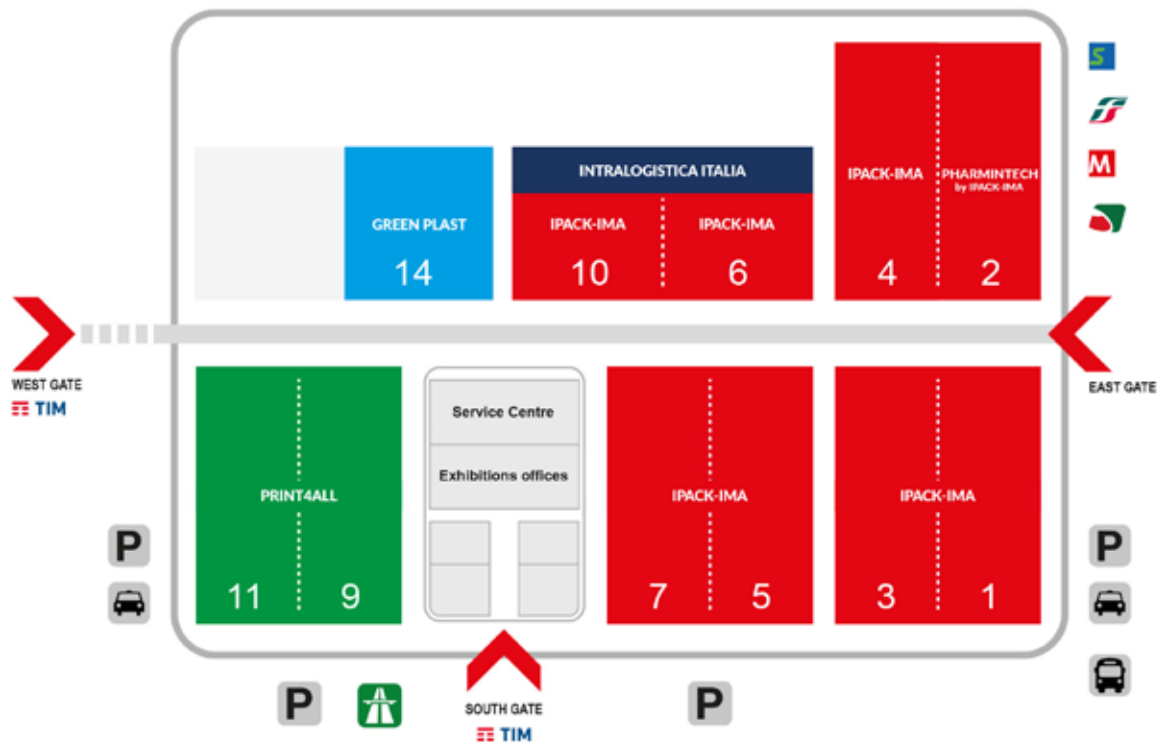

Visitors opening hours:
 9.30 am - 6.00 pm
